

A simple way to access our hyaluronic acid (HA) injections could be the most cost effective way as well.

The next time you choose HA injections for your commercially insured patient, consider using our specialty pharmacy option over buy and bill. The process is simple and may save your practice time and money.

It's Simple:

- No inventory to manage
- No denied claims to appeal
- No reimbursements to collect

It's Cost-Effective:

- No up-front cash needed for inventory
- No risk of financial loss because of denied claims
- Practice bills insurance for administration/injection

Specialty Pharmacy

Simple for your practice, convenient for patients. That's working in HARMOKNEE.

In a busy medical practice, the most valuable and in-demand resource is clinician and staff time. As part of HARMOKNEE practice support services, GenVisc*850 and TriVisc* hyaluronic acid (HA) injections are avail-

able to prescribe direct from our pharmacy network. This simple, efficient and often cost-effective way of accessing HA can ultimately save your practice time - time better spent on patient care than paper work.

Getting started is simple.
